

# Hogar Institute of Technology (HIT)

The **Green** and Clean **Technology Educator** for **Sustainable** Development

## MISSION

At Hogar Institute of Technology, we are committed to providing practical, hands-on training to equip students with the technical depth and soft skills required for success in the green technology industry.

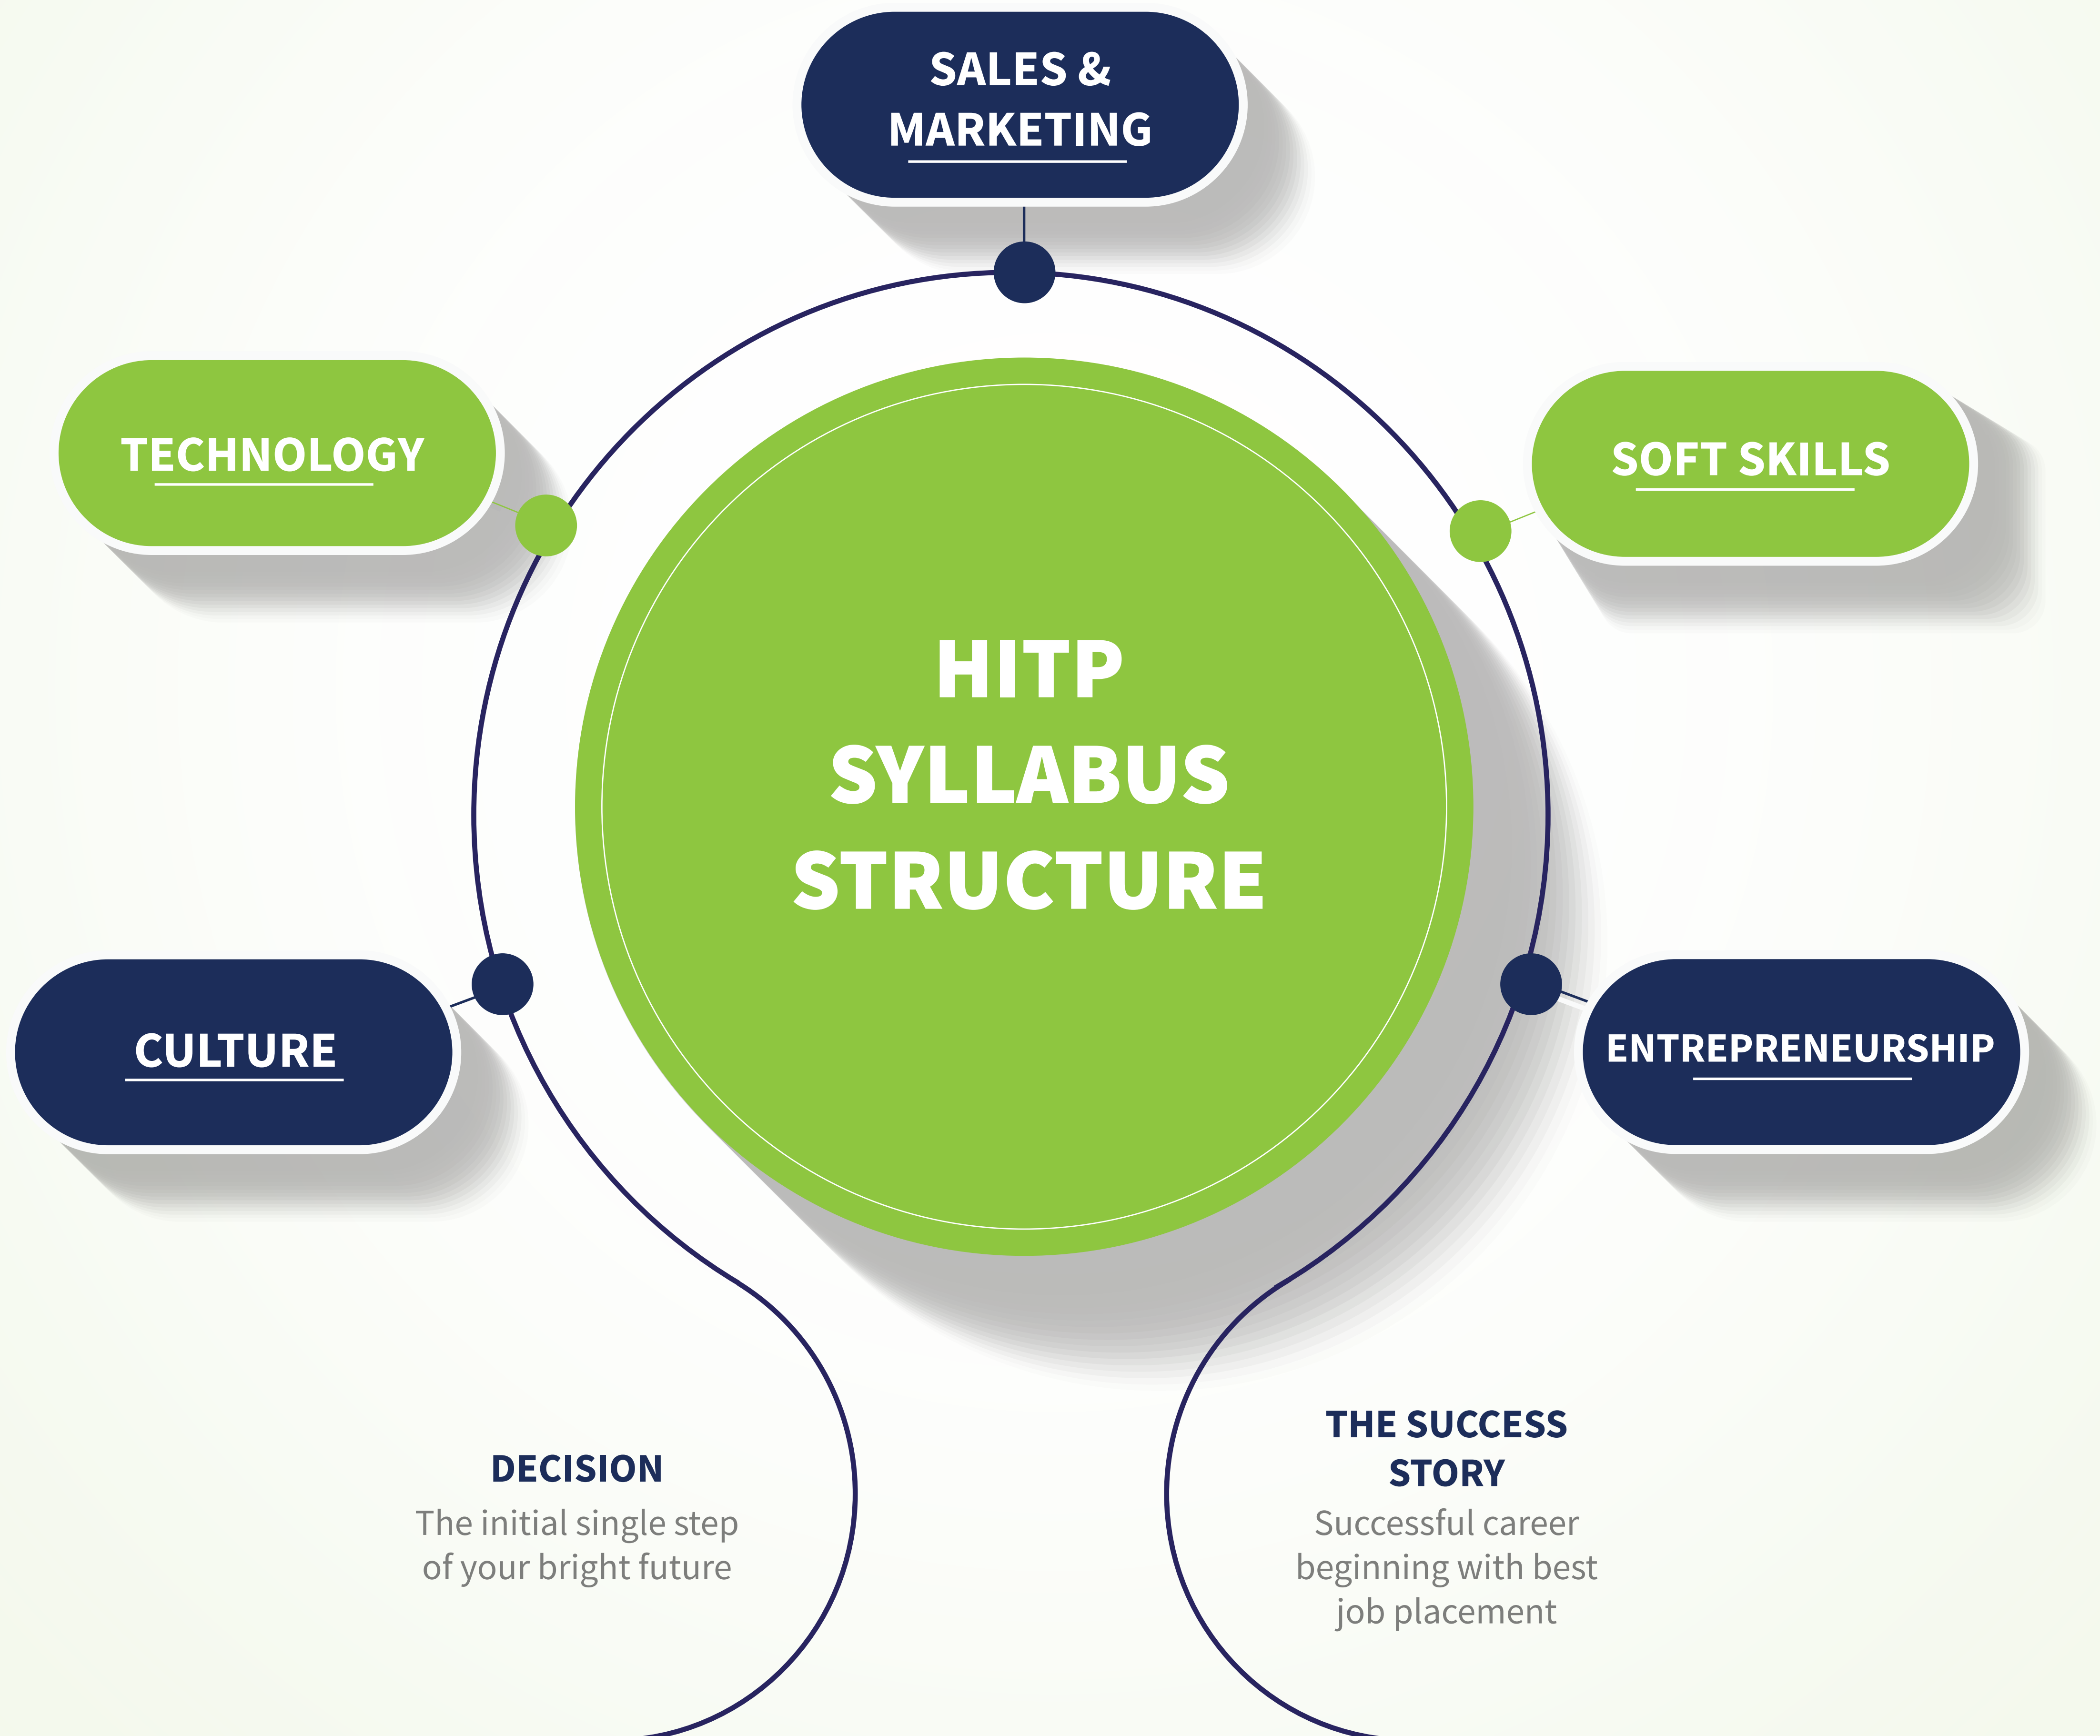

## VISION

To be a leading green technology institute in India, recognized for providing skill-oriented education, promoting entrepreneurship and inclusivity, and contributing to India's economic and social development through lifelong learning.

The **curriculum** is designed to prepare students for various roles in the **electrical, electronics, and entrepreneurship** with an emphasis on hands-on training in **well-equipped laboratories**. Soft skills development is also an essential part of the curriculum, which is critical for **success** in the **green technology industry**.
